At 0:30 a.m. on 27 September, a train of about 30 cars carrying trucks and artillery pieces was unloaded at the Neuhaldeleben railroad station.

25X1X

25X1A 1.  Comment. Source presumably referred to the barracks installation on the northwest exit of Hillersleben where heavy tanks had been observed by source already in early September. It is not impossible that the installation was occupied by units of the 153d Gds Hv Tank SP Regt of the 19th Gds Mecz Div.

25X1A 2.  Comment. According to reports on transportation, the shipment went from Jueterbog to Haldensleben under shipment-record No 61888. The train may have carried AAA units of the 7th Gds Tank Div which had transferred to Jueterbog in August.
